W. A. PIERCE & Co. Successors to E. G. Davis.

Corner Sth Street. CONSIDER THIS A BUSINESS PROPH-ECY AS WELL AS A PARASOL UNDER-STANDING.

719 Market Space,

We acknowledge that it is early and also somewhat cool to be talking about PARASOLS, but as our advance orders of these goods have arrived and are on sale why we think we might as well say a few words as to their good points and also to inform the ladies that we have or exhibition not a few samples, but a LARGE and varied assortment to select from in all of the newest and most tasteful styles, in fact the cream of Parisian nove'ties; that is, French ideas, but, of course, of American manufac-ture, as the Paraso, a used on this side are most

ill made in this country.

Last season the Parasol department of this house did more business than any other depart-ment. Now we want to state that in every department throughout the store that we have MORE than DOUBLED the sales over those MORE than DOUBLED the sales over those of last season, and if correct and attractive styles, LARGE assortments, FIRST QUALITIES and last, but not least, close and LOW PRICES count for anything, and we think they do, we will sell MORE than THREE TIMES as many PARASOLS as we did last season. This may seem a somewhat bold assertion, but so far what we have predicted we would do we have accomplished. Our success is undoubtedly due to the quality of goods that we offer and also to the large assortments and low offer and also to the large assortments and low prices. These points are bound to make the business grow and grow rapidly, too. Come in and look over our Parasols. We won't ask you to buy yet. You can post yourselves on our prices. It may be of use to you.

Well, as long as they are in the market we might as well be the first to show them. The first on the ground has the advantage and we propose to take it when we can set it.

They have been traveling about through Indian territory, visiting all the different reservations, and have held long secret conferences with members of each tribe. Just what their mission is it is impos-sible to learn yet. Trouble is liable to come from the visit. It is a significant fact that several of the tribes that were in favor of allot ment a few weeks ago are now opposed to it, and that the Kaws have a new prophet, who says that in five years the whites will leave the land. The Wichitas, Comanches and Kechis have also resumed their ghost dances.

Eleven years ago, having lost their only child,
the Jacksons, who were then living in New
York, adopted Annie Mesler, an orphan. As
the little one grew up the old people became
more fond of her and she was surrounded with every comfort. Four years ago the Jackson removed to this city. When Annie graduate from school a few months ago the parent wished to send her to college, but she demurred saying she would prefer to study dressmaking, so that she would know something practical. The old folks finally consented and since then

the lot folks finally consented and since then Annie has been going away from home every morning, not returning until evening, telling the folks that she was working in a dressmaking establishment.

Every Saturday night for two months past she has handed her mother \$15, saying it was her week's earnings, and this money was always carefully put away in a hiding place with the pile the old folks had been accumulating for many years. They were not believers in banks and kept the money in the house.

Last Tuesday evening the girl did not come home, and on searching her room a note was found telling her foster parents that she had left forever and imploring forgiveness. It occurred to Mr. Jackson to count his savings, and when his savings bag was found he discovered that over \$1,400 had been abstracted. The police were notified and last night found Annie living with a dressmaker on the north side. The woman said, however, that the girl had been with her but a short time. When taken to the station Annie confessed. She said that all the time she pretended to be at work dress.

Geary, had to days on a \$1,000 wager with Col. Geary, had to give up last evening, having fasted exactly twenty-five days. He began weighing 126 pounds and when he quit he weighed twenty-four pounds less. The urgings of his mother to break the fast on account of his declining health prompted him to quit, although his physician assured him that he could easily hold out for the remaining five days with safety. It is to be regretted that he did not succeed, as the money was to be used in lifting a \$1,000 mortgage from the home of his parents. Col. Geary has assumed all doctor's and other expenses until he fully recovered. During the fast he used thirty-eight pints of water and no food. He was feverish but one day.

Servants in a Fashionable Boardin House Nearly Killed. There came very near being a couple of deaths from coal gas this morning in a fash-ionable boarding house on Lafayette square (No. 27), to which a physician was hastily summoned about 7 o'clock. Dr. G. G. Morris responded, and, on being led to the servants room, found two colored women of middle age lying on the floor in a totally unconscious condition. The smell of coal gas was overpower-ing, and although the breathing of one of the women was such as is noticed in cases of poison-ing, there was no doubt of the cause of the con-

Pearl Lecourt of Boston Charged With the Crime.

Boston Feb 28. Chief of Police Person of the State of the Grant of the two servants.

One was lying on her back near the door, the other being on her face some feet away. Both had their night clothes on and the bed was tossed as if they had occupied it and, becoming aware of the presence of the gas in the room, had unsuccessfully tried to reach the door. The physician gave hypodermic injections of whisky and stimulated breathing, and in a couple of hours the women were much better. One had recovered consciousness and could talk to her friends. The other still lay in a stupefied condition. The accident was the result of some slight defect in the heater, which threw a great deal of coal gas into the sleeping apartment, instead of up the chimney.
